The qualification and experience requirements for the positions are provided below.

## **1. SENIOR URBAN PLANNER**

DULT is looking for a highly qualified, motivated, and creative person to work on sustainable urban planning projects that would help promote walking, non-motorized transport, various scales of public transport systems, intermodal hubs, place making, etc. This is an exciting and challenging opportunity to impact the quality of urban life and place making in various cities of Kalyana Karnataka region. The job will require him/her to travel to urban areas within the Kalyana-Karnataka region.

### **Key Responsibilities:**

- Being responsible for all projects till their completion, preparing the project road map, deliverables, and timelines.
- Preparing conceptual and schematic design drawings as per the Planning & Design norms, municipal by-laws, and technical requirements of concerned departments.
- Preparation of infrastructure plans, TOD plans, landscape plans etc.
- Preparing presentations, drawings, reports, with efficient documentation and organisation of data.
- Undertaking urban development initiatives as per the priorities of State Government.
- Any other work assigned by the Commissioner, DULT.

### **Requirements:**

- Experience with live / completed projects with design sensitivity and precision.
- Master's degree or above in Planning with specialization in Urban Planning/ Urban Design/ Regional Planning/ City Planning or relevant field.
- 6-9 years of relevant full-time work experience in planning / designing /implementation/ researching in urban transport systems.
- Experience in preparation of Master Plans/infrastructure plans/neighbourhood plans/ Landscaping plans is desirable.
- Ability to present technical information in a clear and concise manner (reports/ presentations), with good reading, writing and speaking skills in Kannada and English.

## **2. ASSOCIATE TRANSPORT PLANNER**

DULT is looking for well qualified and motivated professionals to work on sustainable urban transport projects like promotion of non-motorized transport, various scales of public transport systems, develop multi-modal integration solutions, plan for implementation of demand management measures, etc. The job will require him/her to travel to urban areas within the Kalyana - Karnataka region.

**Key Responsibilities:**

- Design and execute data collection activities with adherence to timelines and attention to quality of output.
- Develop designs for development of safe non-motorized transport and public transport infrastructure in urban areas.
- Conduct high quality research to inform planning and project development through best practices for NMT, public transport, shared mobility (mobility-as-a-service), multi-modal integration and demand management.
- Collaborate with other departments, NGOs, research institutes and government bodies at the city level.
- Support in preparing technical articles, policy analysis notes, research reports, presentations, other knowledge products and documentation materials.
- Support head office staff to convene meetings with different organizations and sectors of expertise to develop holistic planning processes and to fortify cross-sectoral collaboration.
- Travel within Kalyan - Karnataka region for site visits and consultations as and when needed.
- Any other responsibilities assigned by reporting officer.

**Requirements:**

- Master's degree or above in Transportation Engineering / Transportation Planning/ Urban Planning with specialization in Transport Planning / Economics with specialization in Transport Economics, or equivalent.
- 3-5 years of relevant full-time work experience in planning / designing /implementation/ researching urban transport systems.
- Should have planned and administered data collection activities like traffic counts, opinion surveys, household surveys, O-D surveys, etc. necessary for urban transport projects.
- Ability to employ qualitative and quantitative analytical methods relevant to urban transport; familiarity with statistical analysis of urban transport data, micro & macro simulation modelling and geographic information systems would be given weightage.
- Ability to present technical information in a clear and concise manner (reports/ presentations), with good reading, writing, and speaking skills in Kannada and English.

### **3. ASSOCIATE URBAN PLANNER/ DESIGNER**
