

Arcadis IBI group is hiring!!!

- Company position: **Jr. Transport Planner**
- Project specific position: Transport planner.
- **Location, nature of employment & tenure:** Bhubaneswar, full-time, 2 years (non-negotiable).
- **Qualifications & experience:** **Masters' degree in transport planning** or equivalent. Bachelors' in planning or architecture is preferred but not mandatory. **Min. 2 years of cumulative field experience** (non-negotiable).
- Anticipated DOJ: **1st September' 23.**

We are currently seeking a passionate transport planner for one of our prestigious projects – Bhubaneswar Urban Knowledge Centre (BUKC), an extended technical wing of Bhubaneswar Development Authority. Applicants must be self-motivated, driven, efficient and organized. Experience of working within a multi-disciplinary team pertaining to city planning, branding, placemaking, landscape design, transport planning & city management will be an added advantage.

Key Competencies / Mandatory skills

- Familiarity with and/or interest in public transit and multimodal transportation.
- Attention to detail and ability to balance priorities and multiple projects.
- Experience in junction & streetscape design, vehicular & pedestrian level of service calculation, Understand the contract and scope of project deliverables.
- Interest in developing new skills and excitement for new challenges.
- Should be updated with the latest policies and trends at the national & global level in the realm of transportation and placemaking.
- Should be comfortable working in a multidisciplinary team of planners, designers, architects, social media personnel.

It's a bonus if you also have:

- Experience with managing transportation planning, engineering and/or data analysis projects.
- Familiarity with transit and mobility data modelling (e.g. VISSIM, GTFS, OpenStreetMap) and/or open source transit software and planning tools (e.g. OpenTripPlanner and Conveyal Analysis).
- Ability to converse and read Odia language.

Responsibilities

- Work on projects such as access design, junction design, network planning, route rationalizing, mobility strategy, multi modal integration, streetscape design etc. with the Placemaking team and at time with the larger Arcadis IBI team.
- Apply transit service planning principles and develop modern approaches to assist in the comprehensive design of modern transit systems and corridors.
- Analyze historical and real time operational and spatial data to assess the quality and performance of transit services.
- Coordinate with clients, and other design disciplines, offices, and staff.
- Contribute to proposals and other business development efforts.
- Preparing concept and detailed presentations, visual representations of analysis, conducting site visits and work progress assessment.

As part of Arcadis IBI Group's selection process, candidates may be requested to consent to background checks relevant to the role under consideration for, prior to receiving a job offer (as applicable). These could include - work references, education and credential confirmation and employment verification. We thank all applicants for their interest. However, only those selected for an interview will be contacted. Arcadis IBI Group is proud to be an Equal Opportunity Employer, including disability.

Competitive compensation package at par with industry standards.

Are you excited to take on bigger responsibilities? Do you consider yourself to have a unique skill set? If so, please fill up the application form in the link below and upload your CV/ resume and Portfolio (best 5-7 projects) on or before 29th Jul' 23.
