

**ITDP**  
INDIA

**is hiring!**

We're expanding our  
**Transport Systems &  
Electric Mobility Team**

Looking for candidates for  
the following positions

- **Deputy Manager, Chennai**
- **Senior Associate, Chennai**
- **Associate, Pune**

# Deputy Manager

## Transport Systems & Electric Mobility – Chennai

We are looking for a candidate with a strong commitment to equity and sustainability and a passion for improving urban life in India.

The candidate will **lead projects and provide in-depth technical support** for project planning, project implementation, policy guidance, and capacity building. The candidate should have experience in the field of **electrification of public and private transport and charging infrastructure**.

## APPLY IF YOU HAVE

- A master's degree in transportation/urban planning or other relevant fields with a minimum of 7-8 years of experience in sustainable urban transport and electric mobility.
- Experience in the field of electrification of public and private transport, and charging infrastructure, with a robust understanding of planning bus rapid transit systems, informal public transport, and public bicycle sharing systems.
- Prior knowledge of developing contract management, fiscal regimes for public transport operations, fare systems and ITMS systems is required.
- Experience of working with urban local bodies and other government institutions.

# Senior Associate

## Transport Systems – Chennai

The candidate will provide in-depth technical support for **project planning, project implementation, policy guidance, and capacity building** in public transport systems, electric mobility, and charging infrastructure.

The candidate will also ensure the **development of high-quality technical reports, policy drafts, guidelines, and training modules.**

## APPLY IF YOU HAVE

- A master's degree in transportation/urban planning or other relevant fields with at least 3-4 years of experience in the field of public transport systems, electric mobility, and charging infrastructure and working with urban local bodies and other government institutions.
- Experience in the field of developing contract management, fiscal regimes for public transport operations, fare systems, and ITMS systems is required.
- Excellent Excel, Access, Autocad, and GIS software skills are required.
- Excellent English and Tamil speaking and writing skills.

# Associate

## Transport Systems — Pune

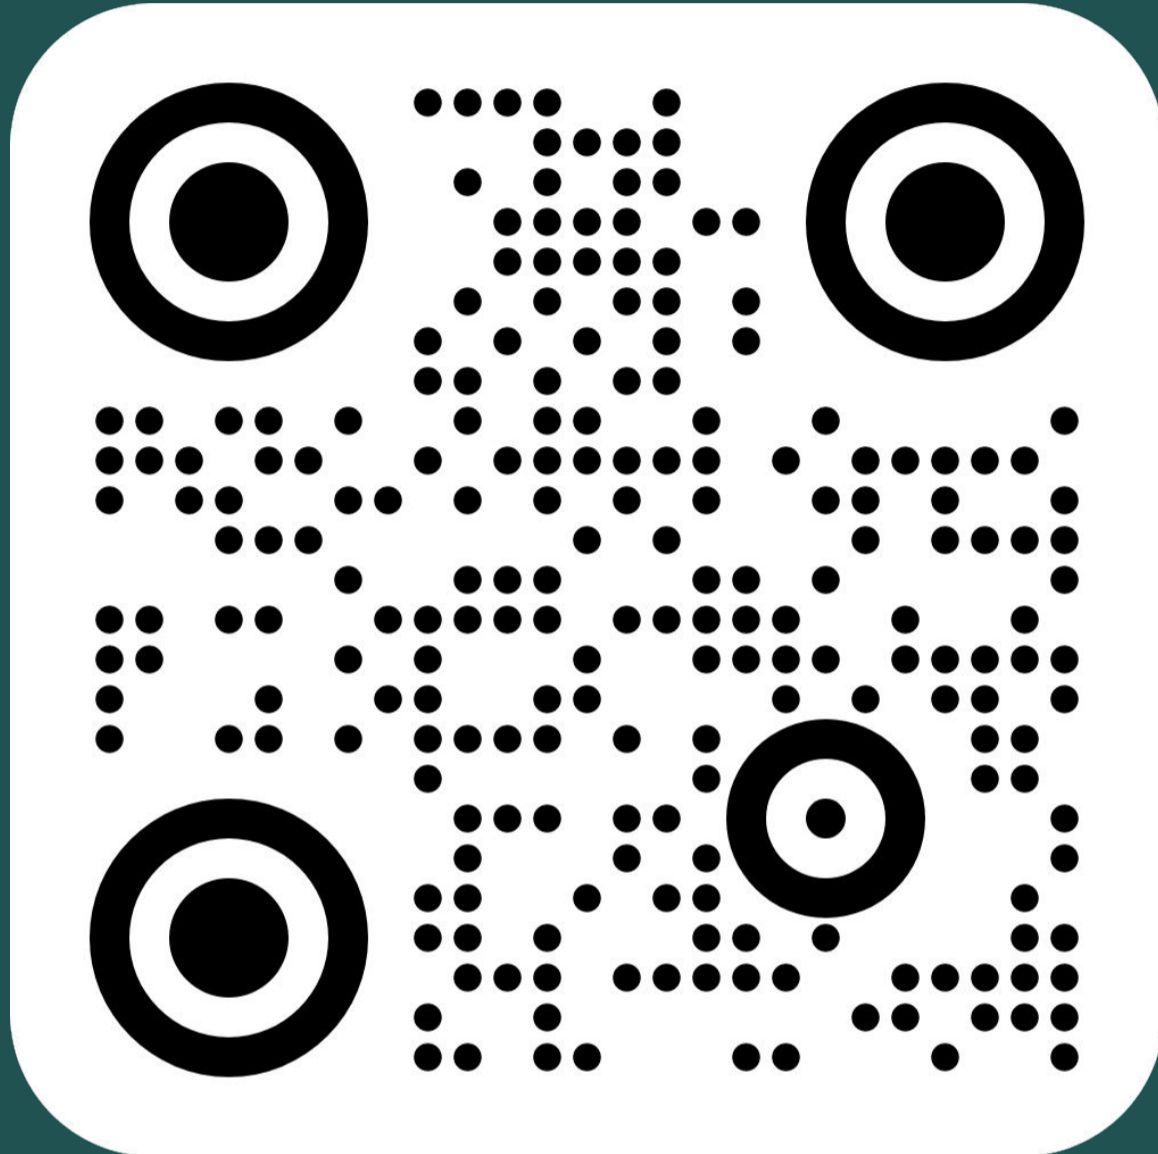

The candidate will provide in-depth technical support for **project planning, project implementation, policy guidance, and capacity building** in public transport systems. They will also develop **technical reports, policy drafts, guidelines, and training modules**. The ideal candidate has a demonstrated ability to work creatively with a diverse team.

## APPLY IF YOU HAVE

- A bachelor's degree in transportation/urban planning or other relevant fields with at least 1-2 years of professional experience in public transport, informal public transport and working with urban local bodies and other government institutions
- Experience in the field of electric mobility, charging infrastructure, public transport operations, fare collection, ITM systems, and other relevant areas
- Excellent Excel and GIS software skills are required
- Good English speaking and writing skills
