# Merizen

---

Merizen is looking for skilled and experienced professionals for the position of Structural Engineers and Sr. Structural Engineers at our Ahmedabad office. In this role, you will be required to carry out structural design of port/maritime structures / coastal infrastructure and general civil structures such as jetties, trestles, quay walls, buildings, workshops, pavement, roads, equipment foundation, etc.

## **KEY REQUIREMENTS:**

### **Qualifications**

- ME/M.Tech in Structural Engineering with BE/B.Tech in Civil Engineering from recognized university (specialization in marine structural engineering is desirable)

### **Experience**

- 4-10 years of professional experience. (experience in design of marine structures / bridges is desirable)
- Should be well versed with the different Indian standard codes. Exposure to various other international codes will be desirable.
- Should have hands-on working experience in both RCC and Steel structures.
- Candidate having experience in pile foundation design will be desirable.
- Proficiency in software like StaadPro, Etabs, Autocad and MS office
- Needs to perform all aspects of conventional design engineering and analysis under supervision/guidance of senior team members.
- Sound analytical ability and presentation skills.
- Strong verbal and written communication skills in English language
- Inclination for technical excellence, individual judgment and initiative for enhancement of skills & knowledge
- Team player with strong interpersonal skills
