- Schedule and conduct interviews with government officials, experts and non-governmental stakeholders
- Participate in designing and administering survey instruments to collect primary data.
- Collating, organising and analysing data .
- Prepare comprehensive reports summarizing key findings from secondary and primary data
- Maintain clear and organized communication with the research team regarding progress and challenges.
- Travel independently to designated research locations within the two states.

Qualifications:

- Master's degree in Environmental studies, Public Policy, Public Administration or a related field with 1 to 3 years of professional experience.

- Experience in conducting both desk top and field research, including surveys and interviews.
- Excellent communication and interpersonal skills, with the ability to build rapport with diverse stakeholders.
- Strong analytical and problem-solving skills.
- Proficiency in written and spoken Tamil, Kannada and English.
- Ability to work independently and manage time effectively.

Benefits:

- Opportunity to contribute to a meaningful project with real-world impact.
- Gain valuable experience in intersection research around urbanisation, planning and governance and climate change
- Work in a dynamic and collaborative research environment.

Duration: Minimum one year with a possibility of extension based on the performance of the candidate. The work station initially will be Chennai.

Salary: INR 40,000-45,000
