## We are Hiring!

### About the organization

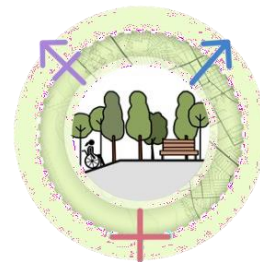

The Urban Catalysts is a mission driven organization working towards climate resilient, gender equitable cities. We advise and provide end-to-end support on street design, parking management, transit-oriented development, multi-modal integration and public space design. Gender equity is a core value of our work.

Transform transport and cities to mitigate and adapt to climate change

Design processes to effectively inform, consult, involve and collaborate

Create vibrant public spaces for gender equitable and universal access

We are a growing organization and hiring a **Manager: Integrated Urban Transport** based in Delhi or Bengaluru, India.

**Position: Manager: Integrated Urban Transport**

**Location:** Delhi, India

**Duration:** Minimum 3 years, full-time.

**Remuneration:** Up to Rs 20.0 lakhs CTC.

## **1. Role and responsibilities:**

- Lead and manage research and implementation of projects and programs on advancing user-centered public transport in Indian cities and states; with a focus on gender equity.
- Lead and manage projects related to street design, parking management, transit-oriented development, and multi-modal integration.
- Develop work plans to implement project activities and monitor implementation while ensuring high quality deliverables;
- Build, guide and motivate a team with interdisciplinary expertise;
- Engage and build rapport with government, donor, CSO partners towards a common vision and goals;
- Identify and pursue fundraising opportunities on climate resilient, gender equitable cities, transport and public spaces.

## **2. Qualifications:**

- Passionate about gender equitable mobility and cities;
- Advanced degree in transportation, urban planning;
- Overall, 8 years' overall experience (after post-graduate studies) in transport and urban development;
- At least 7 years' operational experience (after post-graduate studies) in bus-based public transport and electric mobility;
- Guide, motivate and manage teams with diverse expertise and deliver under tight timelines;
- Prior experience in fundraising for multi-year programs and managing donor partners;
- Advanced knowledge of data analytical tools;
- Excellent speaking, reading and writing in English and Kannada.

Interested applicants must submit a cover letter, CV, at least 2 writing samples and other relevant work samples to [communications@theurbancatalysts.org](mailto:communications@theurbancatalysts.org) with 'Manager – Integrated Urban Transport' in the subject line. Only short-listed applicants will be contacted.
